HuskyCT User Guide: How to Adjust Student Access Dates

1. Go To Customization

Under Course Management select Customization

2. Select Properties

Under Customization select Properties
3. Edit the Properties

The default start date for HuskyCT course sites is the official start date for the term.

Under “Set Availability”, be sure that the course is available.

Under Set Course Duration change the Start Date to the date of your choice.

It is also possible to adjust the End Date. This is typically done when a student with an incomplete needs continued access to the course site.

4. Click Submit

Once the date adjustment has been made, be sure to click “Submit”.
